ABOUT CUSTOMISATION
The Mahindra vehicles offer drivers and passengers both power and comfort. Since all factory produced vehicles are standardized options, many buyers choose to personalize their vehicles by customising the car's appearance. In addition to creating a unique style and a greater level of comfort, customising can greatly alter the feel of the vehicle. Although it requires an investment of time and money, the end result is thought to offset the means. There are many options or ways in which we customise a Mahindra variant. Whether performing interior enhancements or exterior upgrades, the selection of components available is vast. We also customise a pre-owned or existing vehicle in good mechanical condition subject to its fitness evaluation.

A BRIEF HISTORY OF MAHINDRA CUSTOMISATION
Mahindra Customisation is a business vertical within Mahindra and Mahindra Auto Sector. It has a dedicated design studio manned by a competent team with rich International exposure in styling and design. It coordinates with a dedicated Marketing Team with 300 plus market touch points of Mahindra Dealerships across India. The customisation being part of M&M in-house division all customisation is done in concurrence with vehicle engineering guidelines without disturbing the Factory Warranty of the car. The Mahindra Customisation Studio is located in Mumbai and for all major customisation jobs the car needs to come to Mumbai post purchase and registration from city of owner's location. Mahindra Customisation Sales and Marketing team can facilitate the vehicle logistics through logistics partners.
